

Capitalize On Current Market Conditions

Over the next 12-18 months, businesses with an insufficient capital base will be challenged to meet their debt obligations and operational expenses. Well-capitalized businesses will be in a prime position to:

- Acquire weaker competitors
- Invest in R&D
- Gain market share
- Better position their company for a stronger post recession exit

DW Healthcare Partners can be a timely partner because we:

- Have considerable capital available for investment
- Have knowledge and operational expertise across multiple sectors of healthcare
- Only invest in healthcare companies
- Are flexible in the types of investments we make
- Can evaluate and make investment decisions quickly

Now may be the perfect time to make strategic acquisitions and invest in your company. DWHP can be your capital source and partner to build a stronger and more valuable business for tomorrow.

To Learn More

If you are interested in learning more about how an equity partnership could enhance your business, visit us online or we invite you to call our Director of Deal Sourcing, Liz Null, for more information:
